What some of our customers are saying

I wanted to thank you on behalf of our whole team for helping us get started with Filopto....Thanks again for your excellent assistance and pleasant and professional style. It is much appreciated. All the best.

Dr. Jerry Nolfi MBA

Co-Founder and Executive Director

Intel study finds time saving of up to 75% for Manager

The Willingness of the support team to help and work with us is one of the main reasons we chose Filopto.

Raymond Opticians

I've used other software in previous optometrist practices and believe this system to be the simplest and most comprehensive optometric software available.

Dr. L. Testa O.D.

My practice is always evolving so I often make suggestions that would make Filopto an even better tool for me. When the next update arrives many of my suggestions have been incorporated!

When you use Filopto, you get a company that listens to its customers.

Dr. Sandler Burkley O.D. P.A.

Thanks. Just want to say how awesome your company is and what a blessing you have been to us.

Dr. Hieneman O.D.

Partner/Owner

Filopto offers a complete method of recording your work, and easy access to review. No one system is perfect, but **this is as good as it gets!**

Dr. D. E Wyatt, MD

Streamline Workflow & Boost Productivity!

Track and manage patient information, claims, referrals, schedules, and chart notes and easily track your patient billing information and current payments.

From the start, Filopto has your back — beginning with its ability to detect duplicate patient records before creating a new patient file, saving wasted time and effort by your staff.

Filopto's visual scheduler makes booking appointments fast and easy. Change, reserve or block spots in your calendar with the personalized scheduler system. Reschedule, wait-list or cancel appointments with a quick click and visual color-coding system. The integrated scheduler provides direct access to clinical and billing information from your appointment book, eliminating paper file lookups and optimizing the use of staff. Our PaperFree module can help reduce all traces of paper.

Our extensive and **user-customizable EMR** allows you to easily record, dictate or ink your findings into your patient charts.

Finish with a comprehensive fully-integrated inventory, pricing manager and billing system to easily create your sales and automate your claims activities for quick processing and payment.

Increase Marketing Effectiveness & Boost Cash Flow!

**Robust
Reporting**

**Advanced
Marketing
Tools/Services**

**Eye On Your
Business**

With data generated from the daily activities, Filopto allows your practice to monitor and manage its financial success with hundreds of pre-built and customizable management reports that help plan, track and secure your business. The built-in data mining report writer capabilities also allow you to create the unique and specialized reports that your business requires.

The Communication and Marketing module permits you to create the newsletter and other marketing materials that are key to engaging your customers. Enhance your communication by using the paper, email, telephone and integrated Texting (SMS) services to not only keep in touch with your patients, but also find out what they like about your services and how to improve and grow your business.

Filopto can also help you keep an Eye on your Business with its advanced financial analysis module that gives you a summary look at key business indicators for success.

Workflow-based, easy to learn with built-in Help and Wizards to guide you!

EASY TO LEARN

Accra Solutions Inc. partners with your business to implement an Eyecare EHR/EMR Practice Management system that will help deliver a significant rate of investment (ROI) and help you grow your business. Scalable to any practice size, Filopto can be customized to meet unique needs. The workflow-based interface, built-in Wizards and extensive Help make it easy to learn and use.

Filopto is designed to help you become efficient, save you money and give you the peace of mind that your business is well managed. Filopto has the power to help you grow your eye care practice — you will **not** outgrow your software as your eye care business grows.

Filopto represents an investment in better patient care by removing business obstacles. This translates into the kind of quality service that keeps your eye care patients coming back.

ON-SITE OR CLOUD BASED FOR SINGLE OR MULTI-LOCATION

Designed for ophthalmologists, optometrists, and optical stores, Filopto is at home in a one-person shop or a multi-location, multi-user and cloud environment. You can access Filopto from anywhere, with any device.

The SQL database provides instant response to all users, regardless of their location; and with the built-in security, you can rest assured that your data is safe from prying eyes. Filopto also comes with an optional easy-to-use automated secure off-site back-up service to ensure that you never lose any data due to a business disaster.

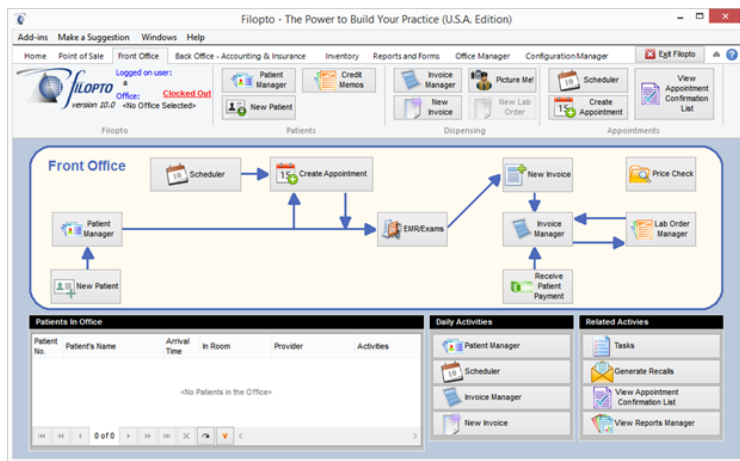

COMPREHENSIVE, CUSTOMIZABLE AND ALWAYS UP-TO-DATE

Filopto is designed to provide you with all the tools and services you need to grow your business: from the office needs to marketing requirements, to keeping an Eye on Your Business and alerting you of things you should know.

The many dashboards and the Eye on your Business module keep you apprised of what is happening in your organization and of the things important to you. Make decisions on timely and complete information!

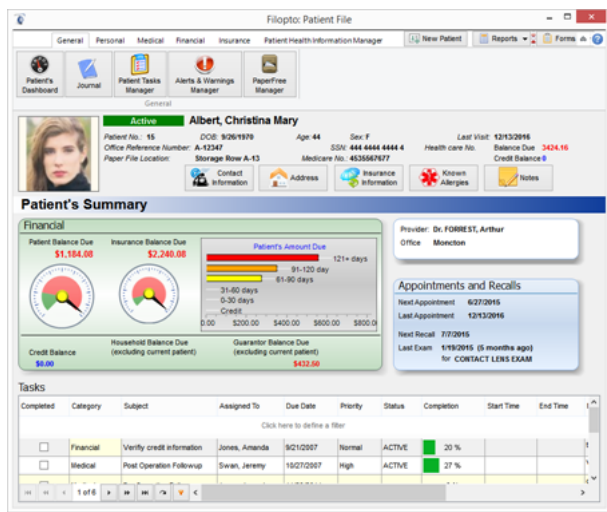

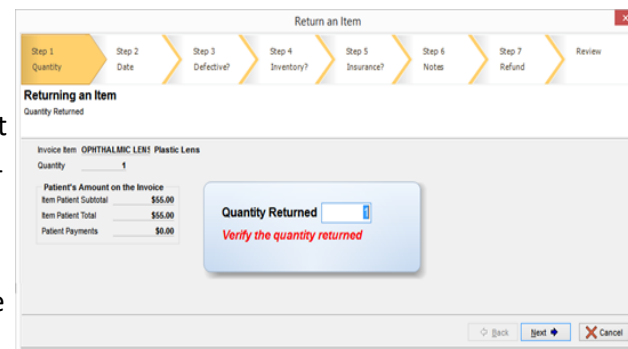

Managing your office has never been easier. Filopto's built-in auto-update and auto-backup service gives you time to spend with your patients and to focus on the important things!

Filopto is designed to be easy to use and comprehensive. Covering more than just the basics, it provides the tools to grow and manage your business.

Filopto's workflow and graphic design put the tools you use the most at your fingertips. The tools you use less often are presented with an easy to follow Wizard that guides you in completing these more complex or less common tasks.

The patient file and user-customizable template-based exam module give you quick and complete access to the patient's chart, demographics and financial information. Filopto is designed to help you manage all aspects of your business.

Our **"Eye on Your Business"** coupled with the user customizable reporting features provide unparalleled business intelligence. The easy to understand dials and charts gives you a clear insight on how your business is doing, so you may address the items needing your attention.

PATIENT ENGAGEMENT SERVICES

Our complete suite of communication services reaches patients the right way, at the right time. Accra Solutions Inc bring you a comprehensive engagement service option that can increase your bottom line.

Until now, staying in contact at the right time with patients was near impossible. Notifying a patient of a sale or when they are due back meant a lot of work. Our solution extends the office's reach and enables this active communication to continue between your office and the patients.

Our services start with the Reminders option and grows into Recalls and continues with the ability to notify patients of orders being ready to pick up, to having them complete surveys to find out how to improve your services. The service is fully integrated into Filopto to make it transparent and easy to use. You can now communicate with your patients in the manner they wish to be reached, from paper mail, newsletters, to telephone, emails and text messages — we have you covered.

Our two partners can permits you to not only send, but capture feedback, confirmation and service requests from patients.

SYSTEM REQUIREMENTS

Filopto runs the latest Microsoft Windows Operating System.

You will require PCs which support and run optimally with the latest Windows version and updates.

We provide a FREE consultation service to help you choose the right equipment for your business.

We have prepared a system guide which discusses the items you will require. For a successful implementation of Filopto, please download the guide from our web site at :

<http://www.filopto.com>

www.filopto.com

"Filopto Optometric Software leaves its competitors in the dust. I've used other software in previous optometric practices and believe this system to be the simplest and most comprehensive optometric software available.

No more hassles with scheduling, insurance filing or recalling patients — it's all at my fingertips!

But I must admit my favorite part is the responsive technical support, complete with a suggestion box and "bug report", which helps them help me.

Thanks, Filopto, you're the best!"

Lisa Testa, OD
Kim Watling, Optician/Office Mgr

ABOUT US

Accra Solutions Inc., a registered Canadian company, launched Filopto in 1994 to serve the Vision Care industry with superior and innovative EHR, EMR and practice management software. Our expert consultants are our clients; our software evolves to the needs and expectations of our clients.

Filopto™ is a leader in the optician, optometry and ophthalmology eye care practice management software market. We have partnered with the industry's best — to bring the tools you need to be successful.

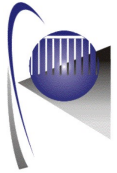

Recommended and reviewed by expert consultants as easy-to-use, comprehensive, reliable, and built using today's leading software technology. Our attitude towards customer service, research, production, marketing, sales, administration and people makes us what we are today. We continually respond to changing markets, changing business practices, and the evolution of technology.

Our long-look business philosophy has remained constant and insures our clients with a product able to meet their needs today, and tomorrow.

Accra Solutions Inc comprehensive practice management software is the Strategic Edge that enables many retail outlets, optometrists, ophthalmologists and opticians to be competitive and service their clients effectively and with professionalism in this competitive eye care industry.

We are pleased by our success and are excited by our quest for excellence and the opportunity of working with our customers.
